Ardmore, Friday, January 7, 1916.

James Dennis Flynn, editor of the Sapulpa Argus, is one man who had a chance to read his own obituary. A few days ago a man was knocked down and killed by a slugger. His name was James D. Flynn and when the Bartlesville Examiner got hold of it the inference was drawn that it was the editor and a fulsome obituary followed. It is now up to Flynn to live up to some of the virtues ascribed to him by the Examiner, for of course he was far above ordinary mortals, as pictured in the obituary.—Ada News.

## WILSON A PUNCTUAL MAN

In the American Magazine James Hay Jr., says in his article on the working habits of President Wilson: "Recently I asked one of Mr. Wilson's secretaries for his opinion as to the most important characteristic, that is, routine and partly mechanical characteristic, in the president's daily work."

"Punctuality," he replied. "There never has been in the White House, and I believe there has never been in Washington, a man who was so marvelously, I might say incredibly, punctual day in and day out."

"He is not only punctual himself, but he requires punctuality from others. If a man is even late once for an appointment with the president, neither he nor the president ever forgets it."

"I remember on one occasion when he was governor of New Jersey, and a special delegation from the legis-

lature was two minutes late in keeping its appointment with him."

"Gentlemen," said the then governor, taking his watch from his pocket, "I am sorry to see that you are late. 'It is true that we are, and we wish to apologize,' said the chairman of the delegation."

"I accept your apology, but I hope it will not occur again," replied the governor.

## MONEY POURING INTO STATE.

Congressman Carter has interested himself in the forthcoming payment that is to be made to the Choctaw and Chickasaw Indians in Oklahoma, from the immense tribal funds to their credit in the United States treasury, and in the banks of this state. Commissioner Sells has recommended a large payment to these two tribes, the amount of which is not yet known.

Commissioner Sells has recommended that the enrolled members of the Choctaw nation shall be paid \$100 more per capita than the amount provided for the enrolled Chickasaws. This was due to the fact that the Chickasaws recently had a per capita payment out of their funds.

There are 20,739 enrolled Choctaws in the state, and they have to their credit in the tribal funds the immense sum of \$7,432,353.24 in cash. The 6,304 Chickasaws have to their credit in tribal funds \$1,922,110.48. The distribution of tribal funds that has been recommended will run into millions.

There is distributed among the war pensioners of the state each year more than \$2,000,000. The amount that is being brought into Oklahoma by the sale of farm products runs into millions. The receipts from the zinc mines and oil products—but what's the use? Speaking of being rich beyond the dreams of avarice, Oklahoma has them faded.—Oklahoma City Times.

**Catarrhal Deafness Cannot Be Cured**  
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Drug-gists, 75c.

## PARKER URGES TAFT

Wants Former President Named as Successor to Lamar.

New York, Jan. 7.—Alton B. Parker, democratic candidate for president of the United States in 1904, issued a statement Wednesday night in which he declared that in his opinion former president William H. Taft should be appointed to fill the vacancy in the supreme court of the United States caused by the death of Justice Lamar.

After paying tribute to Justice Lamar, Mr. Parker said: "The man best qualified to take his place is Judge Taft and he should be drafted if need be to fill it."

PRESENT THE  
INDIFFERENCE  
OF JAPANESE

CHINESE PRESS CHARGE JAPS  
ARE INDIFFERENT TO ACTIVITIES  
OF CHINESE ASSASSINS  
AND TROUBLE-MAKERS.

Peking, China, Jan. 6.—Chinese papers are loud in their denunciation of what they regard as Japan's indifference to the importations of arms, ammunition and explosives into China. The recent seizure at Shanghai of a large quantity of dynamite found in the baggage of a Japanese passenger, who arrived on the Japanese ship Sakaki from the Japanese-controlled port of Dairen, is attracting much attention. The Chinese press is charging that the Japanese are indifferent to the activities of Chinese assassins and trouble-makers located in the foreign concessions, and would be glad to see internal trouble in China which would afford an excuse for intervention.

The Peking Daily News in discussing the Japanese who brought the dynamite into Shanghai, says: "An amount of dynamite sufficient to blow the international settlement off the face of the earth can hardly be hawked from place to place without officials of some kind knowing anything about it. Dynamite is not manufactured in Dairen, and the assumption is fair that it was brought there from Japan. But whatever the place of origin, there should be some record in the customs office at Dairen. A Japanese commissioner is in charge at Dairen, and the first step to be taken is for the Japanese government to instruct him to submit a full report of any recent movements of explosives and of the persons concerned."

"An excellent opportunity is afforded Japan of showing the sincerity of her friendship for China. A full and explicit exposure of the information upon which she bases her belief that disturbances in China are imminent, and a public announcement of her resolve to use all the means at her disposal to prevent aid of any kind being rendered to Chinese anarchists by her nationals, would go far towards removing the cloud of suspicion in which recent action and inaction has enveloped her."

"It is remarkable that Japanese newspapers openly discuss the plans of Chinese anarchists and even fixed a date for an uprising against the government of a country united to Japan by bonds of close friendship."

## Bad Cold Quickly Broken Up.

Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough Remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms."

## FOOD PRICES INCREASE

General Increase of Forty-four Per Cent Since War Began.

London, Jan. 6.—Food prices in England show a general increase of 44 per cent since the war began, according to statistics by the board of trade. Sugar is double the price it commanded in July, 1914, tea is about 50 per cent dearer. British meat has increased to and imported meat 50 per cent, flour 45 per cent, bread 40 per cent and bacon, milk, butter and cheese about 30 per cent. Taking the country as a whole and considering the relative importance of the various foods, the difference in the cost of maintaining the table in a home of moderate circumstances is 44 per cent higher than before the war.

Between November 1 and December 1 of 1915, retail prices of food rose less than 2 per cent. The average increase between the prices of December 1, 1915, and the same date of 1914, show an average rise of 21 per cent.

Figures compiled by the Berlin municipal statistical bureau show that in Berlin between Nov. 1, 1914 and Nov. 1, 1915, the cost of ordinary foods advanced 61 per cent, while the difference between the past September and October prices came to 8.3 per cent.

## Women of Sedentary Habits.

Women who get but little exercise are likely to be troubled with constipation and indigestion, and will find Chamberlain's Tablets highly beneficial. Not so good as a three or four mile walk, but very much better than to allow the bowels to remain in a constipated condition. They are easy and pleasant to take and most agreeable in effect. Obtainable everywhere.
